

Helm ke through Prometheus + Grafana Dalke lana hai...

Monitoring me metrics and logs kya hota hai

Kubernetes Cluster pr, prometheus + Grafana Install karna hai.. helm ke through..

Architecture of Prometheus and Grafana..

Prometheus me data collect karke, grafana me visualise karenge

H.W. - Prometheus ka Architecture padna hai..	1. AKS banaya, Terraform se,
	2. Todo App ke Helm chart ko deploy kia
	3. Prometheus ka chart cluster me dala
	4. Grafana ka chart cluster me dala
	5. Grafana ki values ke chedkhani karke uska ingress chalu kia..
	6. Humne grafana ka admin password secret me se nikala
	7. Admin/Password nikalke login kia and datasource add kia..
	8. Final me Dashboard banaenge...
